Noteworthy Incidents/Arrests:

One arrest was for murder committed elsewhere in the city. Two arrests were for attempted murder. Three handguns were recovered from burglars - location not given.

King Snapper II

The group watched the undercover DVD on the arrests stemming from the sting Operation King Snapper II. The opening shot was open drug deals being done in the doorway of 1551 Jonquil, the corner of Bosworth and Howard and the corner of Jonquil and Ashland.

A blue light police camera has been placed at that corner.

Discussion regarding the low number of arrests on Howard and the rise on other streets may be the direct result of the police pod. Note the arrest numbers on Howard compared to Jonquil, Juneway and Greenview. Following that were neighborly tips on increased lighting outside homes, positive loitering, and community walks.

One concerned neighbor mentioned witnessing drug deals inside and in the area outside Eddie's Restaurant underneath the Howard El.

BUILDING REPORT

Northpoint will add more 'no loitering' signs and increase exterior lighting.

1546 Jonquil Terrace - Eva had met with the new owner. While only 2 families remain in the building, intruders have kicked in

doors, sprayed graffiti, busted toilets. The owner has invested approximately \$80,000 into repairing the vacant apartments and he is considering selling the building due to the recurring vandalism.

Jonquil/Bosworth neighbors again spoke to the procedure of a speed hump to slow down speeders from Sheridan to ensure a stop at the sign. The procedure of gathering petition signatures, procuring a traffic study to validate the need for the speed bump were brought forward. It has been a problem for years according to neighbors who live near that corner.

7548 Rogers - It was reported that this empty building may have squatters in the top floor. The owner would be located and notified.
